## DETAILED ACTION

This action is in response to the Appeal Brief filed on August 26, 2005.

### ***Allowable Subject Matter***

Claims 1-20 are allowable over the prior art of record and in light of Appellant's arguments.

The following is an examiner's statement of reasons for allowance: Although Examiner feels the cited references show substantial features of the Appellant's claimed invention, the Appellant's arguments have convinced the Examiner that the cited references and teachings of the prior art fail to expressly disclose the teachings of Appellant's claimed invention as a whole. More specifically, the cited references and the teachings of the prior art fail to expressly disclose or suggest first information including information about when the transmission side will retransmit requested data to the reception side.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
